Draft VBI70 OU2 AOC for removal 10-15-14 v1 Denver redline 1-27-15.docx

Jennifer – I realized that you and Fonda had probably not seen these, so here are Denver's comments on the AOC for OU2 and I will send you EPA's responses back in a following email.

Subject: RE: Draft AOC and Action Memo for OU2

Richard,

Thank you again for taking the time to meet with us to discuss the possible drainage project through the VB/I-70 site. Per our discussion, I have taken a stab at the discussion of the work to be performed, which will obviously need to be fleshed out as we get more direction on the alignment, design, and size of the drainage. I have also marked up the draft AOC with my comments and a few proposed edits. Please note this is subject to further internal review here.

Once you have had a chance to review, I would welcome the opportunity to talk through with you any issues you see as sticking points.

Thanks,

Jessica

Subject: Draft AOC and Action Memo for OU2

Jessica – I am pleased to be able to send you, for review and comment, a draft AOC and a draft action memo for Denver's proposed work within OU2 of the VBI70 site.

The draft AOC has automatic paragraph numbering and cross referencing within the document. In order to keep these features working properly, the document should be saved as a Word 97-2003 Document with a .doc ending, otherwise the automatic features act up.

Within the model AOC, EPA has dropped the requirement for financial assurance and you will see there are a number of provisions where we will fill in blanks or provide more detail through our discussions and negotiations. After you and your folks have a chance to review these drafts, let's talk and figure out the best means to move these documents forward to agreement.
